
CRANE RESERVATION & CARGO SERVICES

Thanks to the technological advancements the industry to moving towards a customer-centric model. Air cargo players are no longer satisfied with current conditions, as their needs and expectations are changing rapidly. Clients expect a faster, more flexible and transparent service for their shipments. Swiftly evolving industries have forced the air cargo business to become more agile and provide innovative solutions and services. With Crane Cargo solutions, Hitit can be an invisible partner and guide companies throughout this transition.

Overview

Crane CGO (Reservation & Cargo Services) provides the most comprehensive and complete solution for your air cargo operations. Crane CGO is built on a cutting-edge technology platform and based on a modular architecture that covers all aspects of air cargo transportation, from acceptance to final delivery across the air logistics community. Crane CGO enables the partners (airlines, ground handlers, GSAs, forwarders, warehouse operators) to have end-to-end control over commercial, operational, revenue accounting, and management reporting processes. It is available as a Software-as-a-Service (SaaS) model with an application hosted by Hitit.

visibility**

Benefits

Enhanced Capacity Management

Real-time visibility of cargo capacity on flights enables control and management for optimizing a load.

Increased Efficiency

The solution promotes the efficient use of resources in cargo handling and document processing. It supports bar code assistance in cargo handling and discrepancy handling to simplify lost cargo tracking.

Industry Focused

It is fully compliant with industry standards and initiatives such as IATA e-Freight, e-AWB, iCargo CDMP, Cargo2000 and parallel with IATA StB Cargo initiatives. It supports the need to make air cargo easier, smarter and faster.

Improved Performance

Staff efficiency can be improved with a shorter training time and a user-friendly, easy-to-use web-based system.
